GERONTOLOGY

The following sequence of courses, leading to a Bachelor of Science in Gerontology, is only one possible way to complete your degree. "Select from" and "option" choices require planning with help of your advisor. Because of prerequisites and the times courses are offered, it is extremely important to check with your advisor each term to ensure that your schedule of classes will result in your graduation in the usual four years. Some classes are only offered one term per year. The Long Term Care Administration Option will require an additional term of internship and additional courses.
